

I35HC PORTABLE AIR CONDITIONER

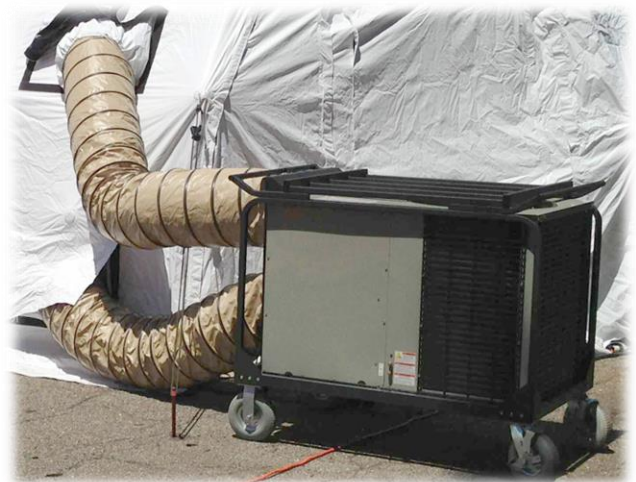

Expressly designed for worldwide rapid deployment, Isolation Systems I35HC Portable HVAC delivers 42,000btu/h cooling and 40,000btu/h heating in one of the easiest to deploy and most versatile 3.5-TON designs on the market.

Unit includes push handles, top mount gear rack, foam filled "no flat" turf tire castors, remote or unit mounted controls, 30' power cord with plug end of choice and 2X heavy duty PVC ducts. It is easy to maneuver resulting in a 5-minute setup time using one person. Unit is available in cart mount as pictured or four way fork liftable skid design and can be used around the world.
